Weapons Policy

Any weapon on college property, when being transported in college vehicles, or during a school-sponsored activity or event without the authorization of the college is prohibited. An exception to this policy will be made for students participating in an authorized class involving the use of firearms or other weapons. Individuals with a concealed carry permit are required to leave their firearm in their vehicle while attending class at TCR unless the firearm is required for participation in an authorized class involving the use of firearms or other weapons. In accordance with federal law, the expulsion shall be mandatory for no less than one full calendar year for a student who is determined to have brought or possessed a firearm at school in violation of this policy. The district school superintendent may make a written modification to the length of this federal requirement for expulsion on a case-by-case basis. Full details of this policy are available on request.

The annual campus security report can be found on our website at www.tcr.edu. To request a printed copy, contact TCR Administration.
