Dear Delta County School District Families,

Student health and safety around COVID are still a concern. Therefore, we will be implementing the following COVID protocols.

Students who are sick or have COVID symptoms need to stay home and test or be symptom-free before returning to school. If your student is positive for COVID, they will need to stay home in isolation for five days from symptom onset and wear a mask to return to school for five days after isolation. We also ask that you continue to notify the school if a student is positive, so we can monitor if we need to take action for other students to ensure their safety. If students feel they want to or need to wear a mask for their protection, we will continue supporting that measure.

Protocols when a Staff Member or Student has COVID-19

When a student or staff member within a cohort or class tests positive for COVID-19, the COVID-positive person will need to stay home in isolation for five days from symptom onset and wear a mask to return to school for five days after isolation. We will not be quarantining anyone who is exposed unless they are symptomatic. Please, do not send your student to school if they are [symptomatic](#) or awaiting a COVID test.

Thank you for working with the schools to continue navigating this pandemic and supporting our students' learning process. We hope that we will continue to move forward in a positive direction.
